

NEW JERSEY SENATOR

IS SCORED BY PALMER

Attorney-General Declares Frelinghuysen Tried to Protect German Interests.

QUOTES REPORTS FROM BERLIN

Was Only Member of Congress Who Sought to Stay Hand of Alien Property Custodian in Taking Over Enemy-Owned Properties.

(By Associated Press.)

WASHINGTON, August 30.—A. Mitchell Palmer, whose nomination as Attorney-General was confirmed yesterday by the Senate, came back vigorously today at Senator Frelinghuysen, Republican, New Jersey, leader of the forces in the Senate which had for a number of weeks held up confirmation of the nomination.

Charging that Mr. Frelinghuysen was constantly active in behalf of German property owners in the United States during the war and attempted to influence legislation which would affect adversely companies in which he personally was "interested financially," the Attorney-General gave a detailed account of alleged activities of the New Jersey Senator while this country was at war with Germany.

Says Senators Play to Germany.

"No American interest has asked for an investigation of the alien property custodian," Mr. Palmer declared. "No American interest is complaining. The Germans are complaining very severely. Senators Frelinghuysen and Calder are pleasing Germany in this business. They have received special mention by the German Foreign Office for their activities, which Germany hopes may result in the Germans getting all their property back."

"I have a copy of my alien property report printed in Berlin in German, with an introduction signed foreign office. I quote from an exact translation of this document: 'That the administration of alien property is considered not without suspicion in the United States herself is evident in the action taken by the Senate because of the resolution presented last February by Senators Frelinghuysen and Calder, demanding an investigation of the alien property custodian because of misappropriations and favoritism. So far as here known the Senate has also refused to appoint Mr. Palmer Attorney-General. It is hoped that this investigation would lead to a just inquiry into the management of the alien property and to a fair judgment of German measures.'"

Opposed Enemy Trading Act.

Mr. Palmer declared that Senator Frelinghuysen was not really antagonistic to him, but to the trading-with-the-enemy act, which he had administered, and "he has been especially against the Americanization of the industrial concerns in America owned by our enemies and heretofore used in a hostile way against this country's interests."

While the act was under consideration Mr. Palmer said, quoting the official record of the hearings Mr. Fre-

linghuysen introduced to the Senate Committee on Commerce Neal Bassett, who strongly urged that enemy owned insurance companies in this country should not be disturbed.

Mr. Bassett was followed by Senator Frelinghuysen with a statement designed to support his arguments. Mr. Palmer said "but Senator Frelinghuysen did not tell the committee he was at that time financially interested in four insurance companies whose relations with German companies would be directly affected by the legislation then proposed."

Sought to Protect German Interests.

Mr. Palmer said the Senator protested to him against interference with and sale of the big German owned woolen mills in Passaic, New Jersey. He was the only member of Congress," the statement continued, "who ever sought to stay the hand of the Alien Property Custodian in taking over or disposing of enemy owned properties in the United States."

In liquidating the business of German owned insurance companies, Mr. Palmer said he received patriotic cooperation from all except one American company, which had reinsurance contracts with the enemy corporations.

"The only American insurance company that stood in the way, therefore, of the final and complete liquidation of German insurance companies in the United States," Mr. Palmer said, "was the Sunvassant Insurance Company, of which the president is Senator Joseph E. Frelinghuysen, of New Jersey."

Mr. Palmer quoted the Congressional Record to show that Senator Frelinghuysen was the only one of the 226 members of the Congress, which voted against the passage of the amendment to the trading with the enemy act, which gave the alien property custodian power to sell German owned properties which had been spy centers and nests of sedition and to permit these great properties to be put in American hands."

VETERANS OF TWO WARS TO HEAR BAND CONCERT

Community Sing Will Be Held at 5 O'clock Today at Confederate Soldiers' Home.

Acting upon the suggestion and request of Mrs. Norman V. Randolph, president of the Richmond Chapter of the United Daughters of the Confederacy, the weekly band concert and community sing will be given today at 5 o'clock on the lawn of the Confederate Soldiers' Home at the Boulevard and Grove Avenue.

The concert and sing will be given in honor of all Confederate and Union veterans in Richmond, as well as for the service and ex-service men of the world war. Special accommodations will be provided for the old soldiers in order that they enjoy the music and sing in comfort. The affair will be given under the auspices of the War Camp Community Service.

Henri Beaupard, song leader of the organization, returned to Richmond last night after an absence of more than a week and will lead the community singing. The sing will take place during the intermission between the first and second parts of the band concert program.

As at the concerts in the past which have been given at Byrd Park on Sunday afternoon, Stein's twenty-five-piece band will play a number of selections.

STATE DENTAL SOCIETY

CLOSES SESSION HERE

Post-Graduate Courses Show Rapid Development in Various Lines of Profession.

DEMONSTRATE X-RAY'S VALUE

New Facts Revealed at Convention Showing Extent to Which General Health Depends Upon Condition of Teeth.

After a week of intensive work in classes, lectures and clinics, the Virginia State Dental Association closed its fiftieth annual session last night at the Medical College of Virginia. Instead of having a few papers read, and a number of social functions, as heretofore, the meeting this year was devoted exclusively to the teaching of three subjects selected for their paramount importance to the dental profession.

Only members of the State Association were permitted to take these post-graduate courses. The men taking the courses were from every section of the State, and they were drilled the entire week in the classes which they selected.

New and scientific methods taught in Oral Anesthesia by Dr. Theodore Blum, of New York City, assisted by Dr. H. L. Rice and Miss Rich, a pilot also of New York, showed, as previously demonstrated, that dental operations can be painlessly performed with the full consciousness of the patient and with no deleterious effect of the drug.

Show Value of X-Ray.

Dr. A. L. Gray, of Richmond, conducted the classes in X-Ray work. Visiting dentists were shown the tremendous importance of the X-Ray in the diagnosis of diseases in and about the teeth. The fallacy of the belief under which the majority of people labor that teeth must ache in order to be diseased, was demonstrated by Dr. Gray, and the value of the X-Ray in discovering blind abscesses and hidden areas of infection, which would not be suspected otherwise since modern dentistry has proved that the greatest amount of trouble is found sometimes about teeth that do not give the patient any sign of discomfort.

The tonsils entered also into the discussions of the importance of the mouth in its relation to the general health since the tonsils are often the seat of grave infection.

In the course in crown and bridge work the latest and most improved methods for the restoration of lost teeth was taught by Dr. Forrest H. Otten, of Minneapolis, assisted by Dr. Allen, of Boston.

Must Replace Teeth.

That it was just as important and necessary to replace lost teeth and to restore normal functions as it is to remove diseased areas was demonstrated in these clinics.

Through all the work of the classes the idea of oral hygiene for which the dental profession generally is putting up a strong fight all over the State, was stressed.

The statement was made that from

an economic as well as a humanitarian standpoint, mouth cleanliness as an asset in preventing future trouble could not be too strongly emphasized and that some provision should be made to take care of poor children in the schools who need dental work.

In Richmond, it was stated, the local school board, realizing the vital importance of having dental disorders in children corrected, has made partial provision for taking care of those whose parents are unable to pay for having this work done, but that the fund for this purpose was inadequate.

Profession Developing.

In different sections of the State there are a few dental clinics, and visiting dentists were urged to give the movement for free clinics all the support possible.

Of the interesting phases of dentistry brought out at this session of the association was the development in recent years so that dentistry as a profession must needs be divided and subdivided into various specialties, until at the present time there are men who limit their work to "orthodontia" (the regulation of crooked teeth), "exodontia" (the extraction of teeth) and "periodontia" (the treatment of pyorrhea).

SECURE 150 NEW MEMBERS

Southside Fellowship League Increases Size in Campaign During Past Few Weeks.

With 150 new members secured last night, raising the total in the treasury by \$150, the South Side Fellowship

League at a meeting in the Central Methodist Church closed its campaign for funds to assist worthy families in indigent circumstances. A private campaign, however, is to be launched this week among the merchants.

The league last year assisted many

families by distributing baskets of food and is planning to enlarge the scope of its endeavors. Committees who are canvassing for new members will meet next Saturday night at the church and make reports of their progress.

THE PEOPLE'S KING

The King's Supreme--- All Hail the King!

THE HIGHER SHOES GET, AND IT COST TO LIVE, THE CHEAPER THE KING SELLS SHOES.

- Thirty-five years' supremacy.
- Thirty-five years' faithful public service.
- Thirty-five years' an enemy to High Cost of Living, and stands today your champion in your fight on High Price Footwear.

SPECIAL ANNOUNCEMENT

After years of effort on the King's part, he has succeeded in getting the entire sample output of a large Boston factory, and these he will place at your service Monday. Following just a few items:

BIG ADDITION TO FIREPROOF STORAGE WAREHOUSE

Work will begin in a few days on a new addition to the fireproof storage warehouse of W. Fred Richardson Company, at Belvidere and Main Streets.

The accompanying illustration shows the present storage warehouse and the additions which will be added at an early date. The new plant, when completed, will have a frontage of one hundred and fifty-nine feet on Main Street and two hundred feet on Belvidere Street.

The improvements will be down-to-date in every respect. The present corner

building will be torn down and rebuilt of fireproof material, thereby making the entire plant fireproof. There will be special compartments for the storage of pianos, expensive draperies, works of art and the like. The safety deposit vaults for the storage of silver and other valuables will be largely increased.

One of the novel features of the new plant will be the modern facilities to care for the comfort of the employees. Baths, lunch and recreation rooms will be provided for the employees.
